Curiosity Education – Aico

TRANSFORMING EARLY CHILDHOOD EDUCATION

What is Aico?

Aico is a social learning robot for children aged 3-6, combining proven pedagogy and with cutting-edge technology. Its adaptive learning system personalizes interactions to support language acquisition, cognitive growth, and social-emotional skills.

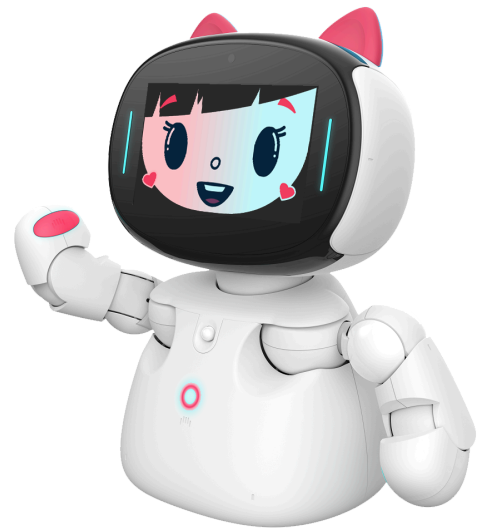

Powered by [Helen Doron's](#) Proven Pedagogy

Key Features

Rich in Interactive and Effective Learning Experiences

Aico makes language learning fun, interactive, and effective:

- **Comprehensive curriculum** – 300 lessons covering over 600 words, with frequent updates to align with elementary school vocabulary requirements.
- **Visual learning support** – Colorful animations and visual aids enhance understanding and retention.
- **Interactive and dynamic activities** – Engaging songs, games, and movement-based activities make learning enjoyable and immersive.
- **Active learning approach** – Aico encourages children to learn through movement, dance, and hands-on experiences, reinforcing their development.
- **Confidence and engagement** – Aico fosters a strong bond with children, boosting self-confidence, sparking curiosity, and keeping them engaged throughout their learning journey.
- **Effective vocabulary learning** – Our lessons follow the Spiral Learning methodology, where language is introduced, reinforced, and naturally absorbed through repetition and engaging activities to ensure effective and enjoyable learning.
- **Continuous content updates** – Regularly adding new material keeps learning fresh, engaging, and exciting.

Personalized Learning Journey

Every child learns at their own pace, and Aico adapts to their unique needs:

- **Customized lesson progression** – Adjusts to match each child's learning speed and skill level.
- **Targeted vocabulary review** – Reinforces difficult words to ensure mastery and confidence.
- **Adaptive activities** – Engages children with personalized tasks that assess and refine their vocabulary knowledge.

Built for Homes & Classrooms

Aico supports both individual and learning center environments:

- **1:1 personalized learning** – Provides tailored, engaging experiences for each child.
- **Classroom-ready** – Supports up to 36 personalized student profiles for seamless classroom integration.

AicoFamily – Connecting Parents to Their Child's Learning

- **Seamless connection** – Bridges classroom and home learning, accessible on any device.
- **Parental support** – Provides insights into learned vocabulary and progress to help parents encourage and reinforce their child's learning.
- **Profile management** – Allows parents to create and manage their child's profile for a personalized experience.

Safe, Child-Friendly & Privacy-Focused

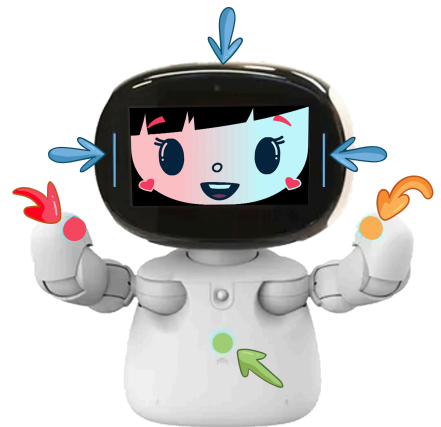

Designed with children's safety, durability, and privacy in mind:

- Parental control – Camera activation requires parental consent, ensuring a secure and trusted experience.
- Kid-friendly durability – Built with high-quality materials to withstand daily use in learning environments.
- Strong data privacy – Child information is securely managed with strict protection measures in place.

Technical Specifications

Technical Specifications

- **Operating System** – Runs on a safe and reliable version of Android 9, customized for kids' education.
- **Sensors** – 6 input sensors make interactions natural, intuitive, and safe for children.
- **Display** – A bright 7-inch touchscreen is designed for easy use and captivating visuals.
- **Connectivity** – Dual-band Wi-Fi for seamless updates and app connections
- **Bluetooth** – for using external headphones in noisy environments
- **Audio** – Clear speakers and microphones for engaging, interactive communication.

- **Battery Life** – Long-lasting battery for extended sessions, with fast and convenient charging. Up to 5 hours of continuous use without a charge!
- **Camera** – HD camera enhances interactive features and supports learning activities (default is “camera off” for privacy needs – only used with parental consent).
- **Processor** – A powerful Qualcomm Octa-core Cortex-A53 processor ensures smooth performance during learning and play.
- **Memory & Storage** – 3GB of memory and 32GB of expandable storage for plenty of lessons and activities.
